Gents,

We are making as good a Carbon for the U. S. system as there is in the market. You run no risk in buying our goods, if they do not prove satisfactory in every way, you may return them at our expense. We quote you prices as follows: 7-16 \$9.00 per M, $\frac{1}{2}$ " \$10.00 per M, F. O. B. Cleveland. We know this price is way below the market for a first class carbon.
